

Smart Trolley

The new generation Smart Trolley is designed to improve library staff ergonomics, workflow and the material handling process. The Smart Trolley is used in conjunction with the P.V. Supa Libretto material handling system or as a stand alone product.

Smart Trolley is ergonomic to handle and maneuver with an easy to use height adjustable handlebar and large lockable rubber castors.

Smart Trolley has fully automatic charging functionality that charges while in position. The trolley can also be charged with an external charger for standalone use. With a new innovative frame design Smart Trolleys can be nested to take up less storage space when not in use.

› Nesting trolleys -> small footprint for spare trolleys.

› Automatic charging, no need to change batteries.

› Easy to use adjustable hand bar. Similar as in children's pram.

› Easy to maneuver.

› Big and lockable castors.

› Accurate stacking of books when sorted in to trolley.

› Possibility swap ergo trolleys to standard bin and vice versa in same sorting position.

Using a Smart Trolley with a Libretto book sorter allows sorting of different sized materials. This is made possible with new advanced design and integrated technology. Normal library bins are interchangeable with Smart Trolleys.

In standalone use, the Smart Trolley's unique design allows convenient browsing by patrons without staff interaction.

GENERAL:

- › Capacity: 30-60 items.
- › Max load 60 kg
- › Item maximum size (WxLxH) 320 x 350 x 120 mm

TECHNICAL INFORMATION:

- › Dimensions (LxWxH) 842 x 440 x 905 mm
- › Color can be chosen from RAL colors
- › Input voltage for charger 100-240V
- › Weight when empty: 29 kg (66 lbs.)
- › Certificates:
